

ENVIRONMENTAL POLICY

PC Electrical (UK) Ltd recognises its responsibilities for the wider environment and to the local community. It is committed to comply with all relevant environmental legislation at local, regional and national level, as a minimum performance, and to continually improve environmental performance through appropriate initiatives, controls, provision of resources and training of employees. The aim is to minimise adverse impacts on the environment of activities, products and services.

Management objectives and targets are established and reviewed on a regular basis to implement the Environmental Policy. These are based on a commitment to six environmental principles:

- Prevention of pollution
- Minimisation of energy and material usage and the production of waste
- Effective and responsible waste management and disposal
- Promoting product reuse and recycling
- Maintaining high workforce awareness of environmental issues
- Involving suppliers, subcontractors and customers in environmental initiatives

PC Electrical (UK) Ltd have identified their main environmental issues as being:

- Biodegradability
- Ozone depletion
- Volatile organic compounds (VOC's)
- Packaging and recycling

All staff will receive training and awareness in how they can contribute towards improving the environment.

The EMS's effectiveness is monitored and maintained by regular audit and Management Review.

This Environmental Policy will be communicated to all employees and made available to the public on request. The involvement of its workforce and external interested and affected parties in its Environmental Policy is encouraged by the organisation through effective communication procedures.

Karl Price
